VirgolivTM Capsule

VIRGO Presents **Virgoliv Capsule**, which is highly effective comprehensive Herbal formula with proven efficacy to combat with liver disorders. It contains standardized extracts of many wonder herbs which are well researched for their role in protecting the liver and clearing the virus of hepatitis. This herbs help to protect the liver from damages of toxins like alcohol and drugs.

There are many research papers published on the role of these herbs for protecting liver from various viruses especially Hepatitis B, C and others. An aqueous extract of these plants inhibits endogenous DNA polymerase of hepatitis B virus and binds to the surface antigen of hepatitis B virus in vitro. The herbs used in the combination of **Virgoliv Capsule** work in a synergistic manner to reduce burden on liver cells, help them to regenerate themselves and provide a protective atmosphere. They are also useful to reduce elevated SGOT, SGPT levels which are markers of liver damage.

Composition:

Each capsule contains Standardized extracts of:

<i>Phyllanthus niruri</i>	(Bhumi Amalaki)	90 mg
<i>Andrographis peniculata</i>	(Kalmegh)	80 mg
<i>Tinospora cordifolia</i>	(Guduchi)	70 mg
<i>Eclipta alba</i>	(Bhringaraj)	65 mg
<i>Tecomella undulata</i>	(Rohitak)	50 mg
<i>Picrorhiza kurroa</i>	(Katuki)	35 mg
<i>Piper longum</i>	(Pipali)	25 mg
<i>Solanum nigrum</i>	(Kakamachi)	25 mg
<i>Cichorium intybus</i>	(Kasani)	25 mg

Phyllanthus niruri
(Bhumi Amalaki) (Bitter 5 %) 90 mg :

- It is very useful in the treatment of liver diseases like jaundice and liver cirrhosis. It helps to remedy fatty liver and liver damage due to any reason.
- It helps in restricting the growth of Hepatitis –B virus found in the blood stream.
- It promotes healthy liver function.

Andrographis peniculata (Kalmegh)
(Andrographolides 20 %) 80 mg:

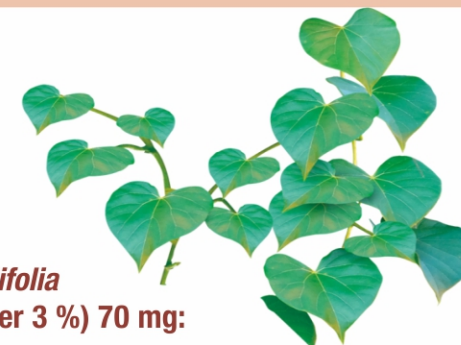

- Kalmegh is bitter tonic and is useful in treating fever, liver disorders, worms, abdominal gas & constipation.
- Kalmegh has antipyretic (lowers fevers), anti-inflammatory, antibacterial, antioxidant, antiparasitic and hepatoprotective (liver protecting) activities.
- It can also be used to treat children suffering from liver and digestive system related problems.

Solanum nigrum
(Kakamachi)
(Alkaloids 0.2 %) 25 mg:

- It is a great natural supplement that works towards the maintenance of Liver and other abdominal organs.
- It is helpful in enlargement of organs like liver & spleen.

SAFE, EFFECTIVE & STANDARDIZED HERBS

Tinospora cordifolia
(Guduchi) (Bitter 3 %) 70 mg:

- It is beneficial in all types of fever and infections including viral and bacterial infections.
- Experiments have examined its antineoplastic, antioxidant, hepatoprotective, hypolipidemic, and immunologic properties.
- It is known to be an effective detoxifying agent. It helps in elimination of harmful substances and toxins from the liver and the kidneys. It flushes out free radicals from the body and makes it pure.

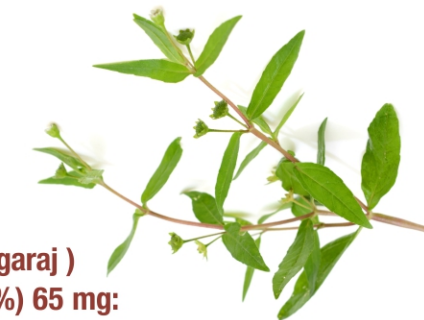

Tecomella undulata
(Rohitak) (Tannin 2 %) 50 mg :

- It is used in the treatment of splenomegaly, liver diseases, jaundice, hepatitis, cough, asthma, fever.
- It is a great natural supplement that works towards the maintenance of Liver and other abdominal organs.

Picrorhiza kurroa (Katuki)
(Bitter 5 %) 35 mg :

- It is considered as one of the best herbal drug to be useful in liver disorders.
- Research also indicates that Katuki may be of therapeutic value in treating viral hepatitis & that some constituents of Katuki may protect against liver damage due to various toxins.

Eclipta alba (Bhringaraj)
(Wedelolactone 3 %) 65 mg:

- Bhringaraj has been traditionally used in Ayurvedic medicines for ages because of its hepato-protective properties.
- Extract of the leaves is used in the treatment of liver cirrhosis, hepatitis and infective hepatitis. It is also used for liver enlargement, jaundice and other ailments of the liver and gall bladder

Piper longum (Pipali)
(Piperine 5 %) 25 mg :

- Pippali helps to deal with indigestion, as it cleanses the lining of the intestines, it helps to improve Appetite. It enhances digestion, assimilation and metabolism of food.
- It increases the bioavailability of the drug , when it is used as a complementary medicine.

Cichorium intybus
(Kasani) (Bitter 1 %) 25 mg :

- Kasani is recommended as a therapeutic as well as preventive supplement for liver diseases. It nourishes the liver in all aspects.
- It works as a hepato-protective, liver stimulant and cholagogue.
